## INTRODUCTION

The New Jersey Department of Environmental Protection, in conjunction with the Association of New Jersey Recyclers, annually recognizes excellence in recycling. Our goal is to highlight the success of agencies, businesses, individuals and others who go beyond the norm to advance recycling and to make these examples available to others who may emulate them.

## ELIGIBILITY

You may nominate yourself, your business/organization, or any other business, individual or organization worthy of recognition. Applicants or projects must:

- be located in New Jersey
- agree to share their project or program with others
- provide supporting documentation for a two-year period (2014-2015)

Award winners from the previous three years are not eligible to participate again this year.

Second party nominations must be accompanied by a written authorization from the nominated party agreeing to be considered for the award.

## AWARD CATEGORIES

The categories for these awards are outlined below. You must identify only one category for each nomination on the attached application. The nomination will be judged against other entries in that category.

## JUDGING CRITERIA

Please document performance for 2014 and 2015 using the following five criteria. The program narrative may not exceed 4 pages and the supporting documentation may not exceed 15 pages.

### 1. MEASURABLE OUTCOMES AND DOCUMENTATION

Show us, through data or documents, the following:

- the nominee's diversion rate and materials diverted;
- any improvement over time;
- all recycled products purchased, and any written policy to do so;
- any reduction in resources used, or any change from toxic products to non-toxic alternatives;
- how the nominee funded and budgeted his project or program;
- any enforcement activities performed.

Samples may include weigh slips, bills of lading, bid specs, budget sheets, buy recycled policies, etc.

### 2. EDUCATION AND OUTREACH

How did the nominee educate both members of his institution/organization, and visitors or clients? What costs were incurred to implement the educational program, and how was this program funded? What rewards or sanctions were used? How many people were reached? Was the nominee able to change behavior, and if so, to what extent? How was that measured?

Samples may include promotional materials, signage, published articles, etc.

### 3. COVERAGE AND REPLICABILITY

Were innovations introduced across all branches of the organization? Can others learn from and adapt the nominee's program in their own organizations?

### 4. LEADERSHIP AND INNOVATION

How does this program, project or individual show leadership and take steps beyond "traditional" recycling? How does this project or individual build alliances or share information to approach problems? Describe such issues as originality, effectiveness in improving existing methods and any risks that were overcome.

## 5. EXCEEDING REGULATORY STANDARDS

How has the nominee exceeded regulatory expectations? Did the nominee collect materials not required, or serve clients that he did not need to serve?
