

The New Jersey WasteWise Business Network

May 22, 2012

To: Members and Prospective Members of the New Jersey WasteWise Business Network

From: Steven Rinaldi, Co-Chair
New Jersey WasteWise Business Network
NJDEP, Bureau of Recycling and Planning

Subject: Minutes from the Network meeting of May 17, 2012

Minutes:

Welcome – Network Co-Chairs Al Fralinger (albert.fralinger@pseg.com) and Steve Rinaldi, (Steven.Rinaldi@dep.state.nj.us) welcomed attendees, thanked Chris Poulsen of Bridgewater Township for hosting the meeting and thanked BMW for sponsoring the breakfast. In all, 119 people registered for the meeting, making it the best attended WasteWise meeting on record. This clearly shows that interest in waste reduction, recycling and recycled product procurement continues to grow.

1. **Freecycle...Reuse in Action** - Maria Belton, Volunteer, Freecycle.org (maria_belton@hotmail.com) – Ms. Belton described Freecycle.org as a grassroots and entirely nonprofit movement of people who are giving away (and getting) stuff for free via an online exchange. There are over 9,000,000 members (membership is free) and 5,000 local groups worldwide. Each local group is moderated by local volunteers. One of the advantages of utilizing local groups is that it reduces the distance that people have to travel to pick up donated items. Donated items typically include clothes, toys, electronics and many, many other items. This online exchange keeps thousands and thousands of items out of landfills and puts them into the hands of people who are looking for items that can be reused. Freecycle extends the useful life of products, helps people save money, helps the environment and creates a sense of community among users. For more information, visit www.freecycle.org.
2. **It's Grease Lightning! – Transforming Vegetable Oil Into Biodiesel** – Jamie Hutson, Director of Business Development, Grease Lightning/Unity Fuels (jamie@unityfuels.com) – Mr. Hutson stated that over 14 billion pounds (= 2 billion gallons) of used vegetable oil are disposed each year. This material is generated by restaurants, schools, hospitals and corporate cafeterias, among other places. Rather than dispose of this material, Grease Lightning collects waste vegetable oil from its clients and processes it into ASTM approved biodiesel for use in heavy machinery and in home heating systems. Mr. Hutson stated that generators of used vegetable oil can get paid for

this material. In addition, Mr. Hutson noted that his company provides containers to their clients free of charge. Biodiesel is clean burning, domestically produced and generates fewer air emissions than traditional fossil fuels. Grease Lightning/Unity Fuels was founded in 2010 and the company now serves over 3,000 restaurants in the northeast region. For more information, visit <http://www.unityfuels.com/>.

3. **Building Momentum for Product Stewardship** – Katherine Bourbeau, Statewide Coordinator, New York Product Stewardship Council – Ms. Bourbeau began by explaining that product stewardship regards the total impact of a product from cradle to grave. It is also known as extended producer responsibility (EPR). A more detailed explanation of product stewardship is as follows:

Product stewardship is the term used to describe a system that addresses the environmental and economic impacts of a product through its life cycle. This environmentally friendly and cost efficient approach begins within the product development and design stage. High quality product performance is key as the product stewardship approach continues through the manufacturing process. Once manufactured, and ready for shipment, appropriate, sustainable packaging is used. As product stewardship strategies are implemented; continued monitoring and analysis ensure the sound distribution, sale, use and proper end of life management of the product. Responsibility for end-of-life management shifts from the public sector alone, to a system where that responsibility is at least partly shared by the private sector. The goal is to encourage environmentally friendly design and recycling, and to reduce the amount and toxicity of waste entering our solid waste stream.

Ms. Bourbeau stated that there are many extended producer responsibility laws across the country, such as New Jersey’s electronic waste recycling law. These laws all shift the cost of end-of-life management of such items from local government to the private sector manufacturers of the products themselves. New York State legislators are currently reviewing EPR bills that would address waste carpeting, paint and mercury thermometers. The New York Product Stewardship Council website www.nypsc.org includes a “business case” weblink that highlights businesses in favor of product stewardship. There are many other helpful resources and tools available online for those interesting in pursuing this topic further.

4. **Sunny Delight – Where Waste Reduction, Recycling and Sustainability are a Way of Life** – Librado Guerrero, Plant Manager, Sunny Delight Beverages Co. (librado.guerrero@sunnyd.com) – Sunny Delight has five manufacturing sites, including one in Dayton (South Brunswick), New Jersey. The company has made a formal commitment to sustainability as per a directive from the company CEO. This includes a focus on the triple bottom line of profit, planet and people. In order to reduce the company’s environmental footprint, it created sustainability committees staffed by sustainability leaders at each company plant. The committees look for ways to reduce waste, recycle more, reduce energy usage and reduce water usage. The committees conduct sustainability audits in order to determine where environmental improvements can be made in company operations. Mr. Guerrero stated that his company is currently at a 90% recycling rate at all of its plants and hopes to reach a 95% recycling rate in the upcoming years. The company recycles paper, metal, plastic, e-waste, film cores, universal and hazardous waste and food waste from its cafeteria, among other items. Sunny Delight uses a consistent recycling bin system throughout its plants to avoid confusion and enhance participation. All recycling efforts at the company are now a profit stream.

The company also focuses on many waste reduction efforts, which include:

lightweighting its plastic beverage bottles;
use of hand dryer blowers instead of paper towels;
use of water filters instead of using water jugs;
double-sided copying as the default setting;
reuse of a wide variety of items, including boxes, drums, totes and pallets;
instructing vendors to stop sending paper catalogs as they will purchase online;
donation of its unwanted items to organizations in need of those items;
electronic billing and timesheets;
and much, much more.

Mr. Librado stressed the importance of educating staff about the company's environmental programs and providing reminders on a continual basis.

The following is the list of registrants for the 5/17/12 meeting:

Speakers:

Al Fralinger, PSE&G, albert.fralinger@pseg.com
Steve Rinaldi, NJDEP, Bureau of Recycling and Planning, Steven.Rinaldi@dep.state.nj.us
Maria Belton, Freecycle.org, maria_belton@hotmail.com
Jamie Hutson, Grease Lightning/Unity Fuels, jamie@unityfuels.com
Katherine Bourbeau, New York Product Stewardship Council, kbourbeau@nypsc.org
Librado Guerrero, Sunny Delight Beverages Co., librado.guerrero@sunnyd.com

Attendees:

Lindsay Aiello, Anheuser-Busch, Lindsey.Aiello@anheuser-busch.com
Kathy Arciero, Green Sky Industries, KathleenA@greenskyind.com
Eric Babek, NJ Turnpike Authority, babak@turnpike.state.nj.us
Kathy Bailey, Mannington Mills, Inc., Kathryn_Bailey@mannington.com
Tina Beakley, South Jersey Healthcare, beakleyt@sjhs.com
Eric Blomgren, New Jersey Gasoline-C-Store-Automotive Association, eric@njgca.org
Anna Bollen, Express Scripts, anna_bollen@medco.com
Angela L. Bonanno-Lynch, Bergen County Utilities Authority, abonanno-lynch@BCUA.org
Brian Brady, Premier Facility Management, brian@pfmgreen.com
Kathi Bragdon, Merck Sharp & Dohme Corp., Kathi.bragdon@merck.com
Eileen Brennan, Garden State Green Quest, eb.mygreenqueen@gmail.com
Margo Brislin, Borough of Carlstadt, recycling@carlstadtnj.us
Carol M. Broccoli, Rutgers University -Office of Continuing Professional Education, broccoli@NJAES.Rutgers.edu
Sean Bruno, Verizon, sean.bruno@verizon.com
Jeffery Bryk, Waste Management, jbryk@wm.com

Richard Button, Harris Tea Company, Richard.button@harrisfreeman.com
Jeff Caldwell, New Jersey American Water, Jeff.Caldwell@amwater.com
Anthony Catananzi, Toyota Logistics Services, Anthony_Catananzi@toyota.com
Steve Changaris, National Solid Waste Management Association, schangaris@nswma.org
Cheryl Coffee, Clean Earth, ccoffee@cleaneearthinc.com
Steve Cook, Elizabethtown Gas, scook@aglresources.com
Roseanne Crisafi, Bergen Community College, rcrisafi@bergen.edu
Kathleen Daly Mascolo, Beacon Converters, Inc., Kathleen@beaconconverters.com
Richard DeLuca, R. DeLuca Associates LLC, richarddeluca@optonline.net
Sharon DelVecchio, Borough of Rutherford, SDelVecchio@rutherford-nj.com
Mark Detroia, Computers for Kids of America, mark.c4k@gmail.com
Michael DiGiore, NJDEP, Michael.DiGiore@dep.state.nj.us
Susan Dorward, Raritan Valley Community College, sdorward@raritanval.edu
Robert Doyle, Cartridge World USA, bdoyle@cartridgeworldusa.com
Michael Draikiwicz, Novartis Pharmaceuticals Corporation, michael.draikiwicz@novartis.com
Al Du Bois, City of Clifton, adubois@cliftonnj.org
Lisa Feldman, Mercer County Freeholder Office, pcolavita@mercercounty.org
Joseph Ferguson, Borough of Palisades Park, dpw@palisadesparknj.us
Aleta Finney, Atlantic City Electric, alfinney@pepcoholdings.com
Antonia Flanagan, Genzyme Corporation, Antonia.flanagan@genzyme.com
Brian Frohnapfel, WM Recycle America, bfrohnap@wm.com
Eric Fox, Telcordia Technologies, Inc., efox@telcordia.com
Bob Frustaci, Premier Facility Management, bob@pfmgreen.com
Jo Gallo, Waste Management, jgallo@wm.com
Sam Garofalo, City of Garfield, sm2731@optonline.net
Kevin Gashlin, U.S. Army Reserve – Public Works, Kevin.F.Gashlin@usar.army.mil
David Gavura, McCarter & English, LLP, dgavura@mccarter.com
Joann Gemenden, Union County Recycling Office, jgemenden@ucnj.org
Dawn Green, Merck & Co., dawn.green@merck.com
Rich Green, Cytec Industries, Inc., Rich.Green@cytec.com
Michael Haladay, Waste Management, mhaladay@wm.com
Howard Halverson, The Valley Hospital, hhalver@valleyhealth.com
Lisa Hamilton, NJ Natural Gas Company, LHamilton@NJNG.com
Melissa Harvey, Somerset County Solid Waste Division, Harvey@co.somerset.nj.us
Bill Havel, Alcatel-Lucent, william.havel@alcatel-lucent.com
Alyssa Hetem, Full Circle Supply, fullcirclellc@yahoo.com
Frank Hetem, Full Circle Supply, fullcirclellc@yahoo.com
Kayla Hetem, Full Circle Supply, fullcirclellc@yahoo.com
Mark Hughes, Princeton Plasma Physics Lab, mhughes@pppl.com
Chris Jones, Gerhart, cjones@gerhart.com
Debbie Lee Kernahan, Garden State Green Quest, dl.mygreenqueen@gmail.com
Margaret Kevin-King, Princeton Plasma Physics Lab, mking@pppl.gov
Art Koster, City of Hackensack, akoster@hackensackdpw.org
Katie Kulenich, New Jersey American Water, Katie.Kulenich@amwater.com
Ben Larkey, Sharp Electronics Corporation, larkeyb@sharpsec.com
Dana Lawson, NJDEP, Bureau of Recycling and Planning, Dana.Lawson@dep.state.nj.us

Sandy Lea, Rust-Oleum Corporation, SLea@rustoleum.com
Bill Lehman, Waste Management, BLehman@wm.com
Kimberly Lehmann, Panasonic Corporation of North America,
Kimberly.Lehmann@us.panasonic.com
Pam Lewis, Watchung Environmental Commission, inspirational_air@yahoo.com
Anthony Lione, Fort Lee Boro, A-Hersh@fortleenj.org
Jerry Lobosco, Green Sky Industries, JerryL@greenskyind.com
Doug Martin, 1-800-GOT-JUNK?, dmartin5254@yahoo.com
Gary Matthews, New Jersey American Water, Gary.Matthews@amwater.com
Bill Messmer, Township of West Milford, BillMessmer@msn.com
Leanna Meyer, Princeton Plasma Physics Lab, lmeyer@pppl.com
Michael Mills, MCC Recycling Services, LLC, Michael.mills@me.com
Dennis Morgan, I.C.E Service Group, Inc., dmorgan@iceservicegroup.com
Dominic Morgan, I.C.E Service Group, Inc., dmorgan@iceservicegroup.com
Joe Morrison, Morrison Landscape & Design, morrisonland@gmail.com
Susan Murray, WasteNot Solutions, smurray@wastenotsolutions.com
James Naples, Township of Bridgewater, twpadmin@bridgewaternj.gov
Patrick O'Brien, Borough of Old Tappan, pobrien@oldtappan.net
Mark Pasquali, Borough of Palisades Park, dpw@palisadesparknj.us
