

The New Jersey WasteWise Business Network

November 18, 2014

To: Members and Prospective Members of the
New Jersey WasteWise Business Network

From: Steven Rinaldi, Chair
New Jersey WasteWise Business Network
NJDEP, Bureau of Recycling and Hazardous Waste Management

Subject: Minutes from the Network meeting of November 13, 2014

Minutes:

Welcome –Network Chair Steve Rinaldi (Steven.Rinaldi@dep.nj.gov) welcomed everyone and mentioned that there were 108 people registered for the meeting. Steve highlighted the diverse mix of businesses and organizations that were present at the meeting and also discussed the mission of the national WasteWise program and its relationship to the New Jersey WasteWise Business Network. In addition, Steve spoke about the draft food waste recycling bill that was developed by the Association of New Jersey Recyclers (ANJR). The proposal is getting the attention of state legislators and should be on everyone’s radar. The draft bill would require food waste recycling at commercial and institutional entities that generate at least 104 tons of food waste per year (or about 2 tons per week.) The proposed law would only apply if a permitted Class C Recycling Facility for food waste was located within 35 miles of the generator and the cost is less than the cost of the generator’s regularly used disposal option (landfill, incinerator, or transfer station). Visit www.anjr.com to read the draft legislative proposal. Lastly, Steve announced that November 15th was America Recycles Day (ARD) and that Margaret Kevin-King, the Network’s liaison to the national WasteWise program, had brought with her ARD pledge cards for attendees to complete, if interested. At the end of the meeting, one of the pledges was chosen randomly, with the winner receiving a very nice satchel courtesy of the U.S. Department of Energy.

Carton Recycling Has Arrived – Barbara Heineken, The Carton Council, bheineken@recycle.com – Ms. Heineken began her presentation with a look at sustainability indicating that in order to see a financial return on sustainable initiatives companies should first focus on energy efficiency, waste prevention and recycling. She further stated that this meant looking at systems and processes and not just what one does with cafeteria and office waste, for example. Making the business case for sustainability is important and easy to do in today’s business environment, but does require a shift in one’s mindset. Ms. Heineken indicated that one of the keys to implementing successful sustainable initiatives is to have commitment from upper management. Ms. Heineken next focused on the work of the Carton Council, which is a group of carton manufacturers that got together in order to deliver, long-term, collaborative solutions to

divert valuable cartons from the landfill. The cartons in question are those refrigerated and shelf-stable food and beverage products that have become familiar to all, such as milk cartons, juice cartons, soup cartons, juice boxes, etc. These cartons are made mostly of high quality paper fibers, which are readily recyclable. Ms. Heineken stated that carton recycling has tripled since 2009 and that over 50% of the country now has access to carton recycling. The Carton Council works with generators, such as schools, hospitals and others, processors and recycling end-markets to ensure that the recycling system works. The Carton Council is working hard to teach consumers about the recyclability of cartons through various educational and promotional campaigns. For more information, visit www.recyclecartons.com and www.cartonopportunities.org. (PowerPoint to be available at www.anjr.com.)

Recycling, Waste Reduction & Sustainability Communications that Employees & Customers Will Actually Care About - William G. Russell, Principal, Transitioning to Green, LLC, wgrussell@prodigy.net – Mr. Russell stated that to be a good communicator, one first needs to be a good listener. In addition, he indicated that companies must infuse their communications efforts with their brand’s flavor to engage consumers. Messages must be clear, concise, and provide value. They should also convey positive emotions. Visual messages are highly recommended. Messages about sustainable actions, such as recycling, should not only explain why recycling is important, but also ask people to do it. At this point, make sure to remove any obstacles preventing people from taking the desired action. Mr. Russell also recommended making one’s stakeholders the heroes in your messages. In regard to internal communications, Mr. Russell spoke about the importance of making the business case for sustainability. Through various sustainable initiatives companies can reduce energy costs, waste management costs and purchasing costs. Mr. Russell stated that businesses can flourish in this new “green” economy. (PowerPoint to be available at www.anjr.com)

Commercial and Residential Carpet Recycling Update – Sean Ragiell, President, CarpetCycle, LLC, sean@carpetcycle.com – Mr. Ragiell first spoke about the carpet industry’s efforts to advance and promote carpet recycling. This is done through an organization called the Carpet America Recovery Effort (CARE), which was formed in 2002 to facilitate market-based solutions for the reuse and recycling of post-consumer carpet and to encourage design for recyclability. Among other things, the rise of PET carpeting, which is more difficult to recycle than nylon carpeting, was cited as one of the major challenges facing carpet recyclers today. Despite the challenges facing this industry, carpet recycling has grown significantly over the past decade. In fact, 94 million pounds of carpet were recycled in 2003, while 500 million pounds were recycled in 2013. The recycling end markets for recycled carpet include engineered resins, carpet fiber and carpet backing. The environmental benefits of recycling carpet are well documented. Carpet recycling not only keeps materials out of landfills, but also helps to reduce greenhouse gas generation. Carpet recycling also makes economic sense since it costs less to recycle carpet than to dispose of carpet. Mr. Ragiell’s company, CarpetCycle, LLC, was formed in 1999 and is now located in Newark, New Jersey. The company is looking to expand and in turn is looking for more sources of recyclable commercial and residential carpeting. The company recycled over 15 million pounds of material in 2013 and employees 43 people. (PowerPoint to be available at www.anjr.com)

Case Study – Waste Reduction and Recycling at WithumSmith+Brown – Rhonda Maraziti, Director of Marketing and Practice Growth, rmaraziti@withum.com – WithumSmith+Brown is an accounting firm with five offices in New Jersey. The company has embraced waste reduction and recycling in many ways. In regard to waste reduction, WithumSmith+Brown has initiated a number of “paperless” strategies to help reduce paper utilization in the office. The company promotes the scanning of documents rather than the printing of documents by providing all employees with a scanner. The firm has reduced its faxing and hard mailings and provides each client with a virtual file cabinet rather than paper copies of documents. In addition, the company has set the printing preference default to double-sided printing. The firm has also switched from paper to digital for its holiday cards, partner announcements and presentations. In fact, the latter strategies alone saved the company over \$45,000 in printing costs. WithumSmith+Brown has found that the paperless approach has not only led to cost savings, but has also increased productivity. In regard to cost savings, the company saved \$22,000 in storage costs since fewer paper files are now retained. Ms. Maraziti indicated that the company’s paperless initiatives also helped them reduce their paper shredding costs. Thanks to the company’s paperless initiatives, WithumSmith+Brown was also able to save procurement dollars since less paper was needed for operations. Over \$2,800 in paper procurement costs were avoided over the last year due to their paperless strategy. WithumSmith+Brown provides a recycling container at all desks and recycles paper, corrugated, bottles and cans, as well as laser cartridges. WithumSmith+Brown also focuses on corporate social responsibility and thus has embarked on several programs wherein employees volunteer their time and raise money for charitable causes. (PowerPoint to be available at www.anjr.com)

The following is the registration list for the 11/13/14 meeting:

Speakers:

Steve Rinaldi, NJDEP, Bureau of Recycling and Hazardous Waste Management, Steven.Rinaldi@dep.nj.gov
Barbara Heineken, Carton Council, bheineken@recycle.com
William Russell, Transitioning to Green, LLC, wgrussell@prodigy.net
Sean Ragiel, CarpetCycle, LLC, sean@carpetcycle.com
Rhonda Maraziti, WithumSmith+Brown, rmaraziti@withum.com

Attendees:

Jennifer Ayres, LifeCell Corporation, JAyres@Acelity.com
Eric Babek, NJ Turnpike Authority, babek@turnpike.state.nj.us
Tina Beakley, Inspira Health Network, BeakleyT@ihn.org
John Bennevich, Subcontractor with the NJ Civil Service Commission, jbennevich@att.net
Angela Bonanno-Lynch, Bergen County Utilities Authority, abonanno-lynch@bcua.org
Carol Broccoli, Rutgers University, broccoli@AESOP.Rutgers.edu
Jeff Bryk, Direct Waste Services, JBryk@tfaredirect.com
Mike Burton, Atlantic County Utilities Authority, mburton@acua.com

Pedro Carrasco, Hyatt Regency New Brunswick, pedro.carrasco@hyatt.com
Greg Cassella, Verisk Analytics, GCassella@verisk.com
Hinjun Chan, West-Ward Pharmaceuticals, hchan@west-ward.com
Neil Chuprinko, Realogy Holdings Corp., Neil.Chuprinko@realogy.com
Oscar Cradle, Borough of South Toms River, OscCrd@aol.com
Roseanne Crisafi, Bergen Community College, rcrisafi@bergen.edu
Robin Cunningham, Ocean County Dept. of Solid Waste Mgmt., RCunningham@co.ocean.nj.us
Raymond Cywinski, United Water, Ray.Cywinski@UnitedWater.com
Sharon DelVecchio, Borough of Rutherford, sdelvecchio@rutherford-nj.com
Nancy Dennion, Burlington Stores, Inc., Nancy.Dennion@burlingtonstores.com
Guy Dietrich, Sr., Mafco Worldwide Corp., gdietrich@mafcolicorice.com
Susan Dorward, Raritan Valley Community College, sdorward@raritanval.edu
Bob Doyle, Cartridge World, bdoyle@cartridgeworldusa.com
Al Du Bois, City of Clifton, adubois@cliftonnj.org
Melissa Dumansky, LogTech, LLC., mdumansky@logtech.com
Thomas J. Eschmann, Township of Morris, teschmann@Morristwp.com
Aleta Finney, Atlantic City Electric (Pepco Holdings, Inc.), alfinney@pepcoholdings.com
William P. Fisher, Amicus Therapeutics, wfisher@amicusrx.com
Tom Fitzgerald, Jr., T.M. Fitzgerald & Associates, tfitzgeraldjr@tmfitzgerald.com
Sondra Flite, NJDEP, Bureau of Recycling and Planning, Sondra.Flite@dep.state.nj.us
Phil Galletta, Smart E2 Solutions, ptg9955@gmail.com
David Gavura, McCarter & English, LLP, dgavura@mccarter.com
JoAnn Gemenden, Union County Recycling Office, jgemenden@ucnj.org
Marilyn Gettinger, New Directions Consulting Group, mgettinger@aol.com
Gabriel Gonzalez, Five Stars Roofing & Contracting, LLC, fivestarsroofing@gmail.com
Rich Green, Cytec Industries, Inc., Rich.Green@cytec.com
Michael Halady, SBM Management Services, mhalady@sbmcorp.com
Howard Halverson, The Valley Hospital, hhalverson@valleyhealth.com
Lisa Hamilton, NJ Natural Gas Company, LHamilton@NJNG.com
Eric Hanan, Bee Bold Apiaries, eric@beeboldapiaries.com
Melissa Harvey, Somerset County Division of Solid Waste Management, Harvey@co.somerset.nj.us
Bill Havel, Alcatel-Lucent, william.havel@alcatel-lucent.com
Priscilla Hayes, Priscilla Ellen Hayes Consulting, priscilla.ellen.hayes@gmail.com
Kemrey L. Heinold, Rehrig Pacific Company, KHeinold@RehrigPacific.com
John Hoegl, Sustainable Ewing Green Team, j.hoegl@verizon.net
Mark Hughes, Princeton Plasma Physics Lab, mhughes@pppl.com
Mario Ianiero, Complete Recycling Solutions, mIaniero@crsrecycle.com
Harrison Jannotti, West-Ward Pharmaceuticals, HJannotti@west-ward.com
Raj Kaur, Saint Barnabas Medical Center, rkaur@barnabashealth.org
Margaret Kevin-King, Princeton Plasma Physics Lab, mking@pppl.gov
JoAnn King-George, Township of Denville, jgeorge@denvillenj.org
Sonya Kougasian, Earth Friendly Products, skougasian@ecos.com
Michael Lane, LifeCell Corporation, mlane@Acelity.com
Roberta C. Lang, New Jersey Department of Agriculture, roberta.lang@ag.state.nj.us

Dana Lawson, NJDEP, Bureau of Recycling and Hazardous Waste Management, Dana.Lawson@dep.nj.gov

Bill Lehman, Waste Management, BLEhman@wm.com

Kimberly Lehmann, Panasonic, Kimberly.Lehmann@us.panasonic.com

Jill Lipoti, Ph.D., enviroCOP, LLC, jill.lipoti@verizon.net

Johanna Luttrell, Village of Ridgewood, jluttrell@ridgewoodnj.net

Mark J Mager, Inspira Medical Center Woodbury, MagerM@ihn.org

Dave Matthews, Bristol-Myers Squibb Company, dave.matthews@bms.com

Tom McGeachen Sustainability Consultant, PE, LEED AP O&M, tjm35@njit.edu

Patrick McLaughlin, Verisk Analytics, PMcLaughlin@verisk.com

Bill Messmer, West Milford Township, maintenance@westmilford.org

Leanna Meyer, Princeton Plasma Physics Lab, lmeyer@pppl.com

Robyn Mock, West-Ward Pharmaceuticals, romock@west-ward.com

Greg J. Moritz, Village of Ridgewood, gmoritz@ridgewoodnj.net

Pam Mount, Terhune Orchards, phmount@comcast.net

Dongyan Mu, Kean University, dmu@kean.edu

Susan Murray, WasteNot Solutions, smurray@wastenotsolutions.com

Brendan Nally, Borough of Somerville, bnally@somervillenj.org

Sarah Jane Noll, Chester Township, sjnoll@chestertownship.org

Rich Orlusky, United States Postal Service, richard.c.orlusky@usps.gov

Greg Pavlic, Township of Parsippany, gpavlic@parsippany.net

Todd Pifher, Cox Printers, tpifher@coxprinters.com

Frank Piliere, NJDEP, Bureau of Recycling and Hazardous Waste Management, Frank.Piliere@dep.nj.gov

David Potts, PSE&G, david.potts@pseg.com

Joseph Puro, National Bulb Recycling, bulbrecycle@optimum.net

Senen Roxas, Amneal Pharmaceuticals, Senen@amneal.com

Audrey Rozger, Township of Woodbridge, audrey.rozger@twp.woodbridge.nj.us

Gordon Sabol, Waste Management, gsabol1@wm.com

Barry Salis, Logtech, LLC, bsalis@logtech.com

Russel Samaroo, NJ Transit, RSamaroo@njtransit.com
