

Recycling Fluorescent Bulbs and Ballasts

Preserving Resources,
Preventing Waste

Presented by: Joseph Puro
November 8, 2012

Contents

- NBR Overview
- Universal Waste – Lamps and Ballasts
- Hazards
- Recycling methods
- Regulatory Landscape
- NBR – Focus on Service

Universal Waste - Lamps

- Fluorescents
 - Tubes: Straight Circular and U-Bend
 - Compacts fluorescent
- Metal Halide, Bi-ax, High Intensity, Bi Metal
 - Flood
 - Incandescent
 - Halogen
- HID (High Pressure Sodium)
- UV Lamps
- Shatter shield or coated Lamps

Universal Waste - Ballasts

- PCB Containing Ballasts
- Non-PCB Containing Ballasts

Environmental Hazards

Pre-Disposal Storage

- Lamps

Improper

Proper

- Ballasts

Improper

Proper

Recycling of UW Lamps

LAMP RECYCLING PROCESS FLOW

Recycling of UW Lamps

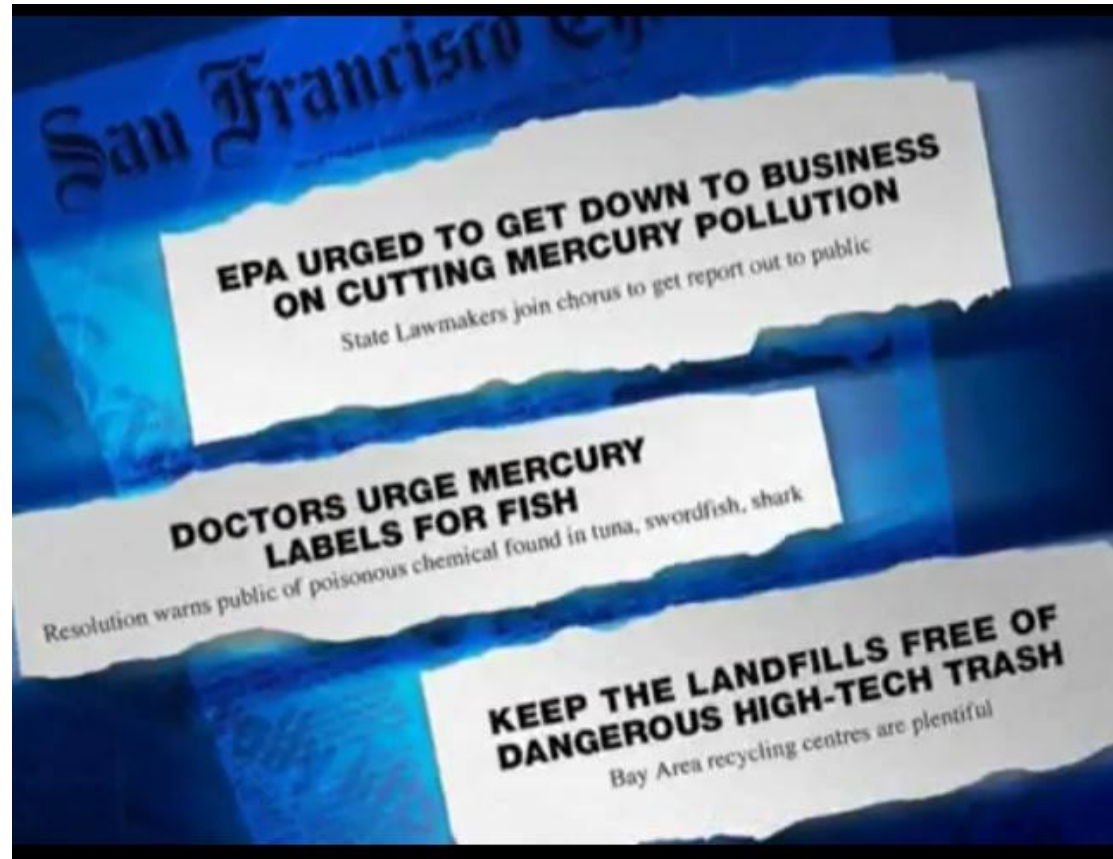

Recycling of UW Ballasts

Regulatory Landscape

- Federal
- State
- Local

NBR Focus on Service

- Large generator pick-up service
- Small generator container service
- Certified recycling centers
- Certificate and annual log
